Active Clearance: Secret

Summary

With a unique blend of experiences in computer programming, music education, and military training, I bring a focused, thoughtful, and efficient approach to web development. I look for the less obvious solutions, adapt to changing needs, and embrace a challenge to meet and exceed the expected goals.

Skills

HTML/CSS	Javascript	React.js	Node.js	Express
Mongoose	MongoDB	Python	Django	SQL

Projects

Tower of Hanoi: Recreation of the classic block-stacking game.
➢ *Tech Used:* HTML, CSS, Javascript
➢ *Deployed:* https://adam-delessio.github.io/Tower_of_Hanoi/

National Parks: Uses the National Parks API for data and a mockup for the interface.
➢ *Tech Used:* React
➢ *Github:* https://github.com/Adam-DeLessio/national-parks

Breweries API: Back end to a larger project. Provides a JSON view of several Virginia breweries.
➢ *Tech Used:* MongoDB, Mongoose, Express, Node.js
➢ *Deployed:* https://mysterious-lowlands-53459.herokuapp.com/

Contact Book: Command line application with full CRUD capabilities.
➢ *Tech Used:* Python, PeeWee, SQL
➢ *Github:* https://github.com/Adam-DeLessio/python-cli-project

Experience

General Assembly Software Engineering Immersive   Washington D.C.
Student   Nov. 2019 - Feb. 2020
